**INSTALLATION**

TiVo Stream 4K installation is literally 1, 2, 3. Three steps and you’re ready to go.

---

**STEP 1**
Connect TiVo Stream 4K to your television’s HDMI port.

**STEP 2**
Attach the USB power cord to TiVo Stream 4K and plug it into a wall outlet using the supplied power adapter. **NOTE:** Use only the provided USB adapter. Do not plug directly into a USB port. Failure to plug the provided adapter into a properly powered outlet may result in product malfunction.

**STEP 3**
Turn on your TV and follow the on-screen instructions. (If you don’t see the TiVo remote pairing screen, you may need to switch HDMI inputs on your TV.)
REMOTE CONTROL PAIRING

To use TiVo Stream 4K, your remote and device must be paired. As noted in Installation, when you plug in your TiVo Stream 4K for the first time, you’ll see a remote control pairing screen. As described on screen, press BACK 🔄 and the TIVO button 🚢 simultaneously until the activity light turns red.

If your remote can control your TiVo Stream 4K, then the remote is paired correctly. If you find that your remote does not control your TiVo Stream 4K, see the manual pairing instructions in Remote Control Pairing.

Once you’ve paired your remote and TiVo Stream 4K, you’re ready to begin setup.
ON-SCREEN SETUP

PART 1: DEVICE SETUP

Once you pair your remote, you'll choose a language, connect your device to your home network, and follow a series of on-screen prompts to set up your device.

During device setup, you will be prompted to sign in to your Google account. With a Google account, you can use your voice to search for shows, open apps on Google Play, and more with Google Assistant. If you don’t have a account, you can sign up for one at accounts.google.com/signup. Note that you can choose to create a Google account with your current email address.

PART 2: ACTIVATION

After device setup, you will come to an activation screen (shown at left). Using a computer or mobile device, open a browser and go to the website provided to enter the activation code.

Once the code has been entered correctly in your browser, you’re ready to begin Part 3: Personalize.
PART 3: PERSONALIZE

You’re now ready to begin personalizing your TiVo Stream 4K experience.

CHOOSE YOUR FAVORITES

First, you’ll be asked to choose your favorite from pairs of shows. These choices tell the TiVo Stream app what kinds of programs it should show you first. The more of these pairs you rate, the more your TiVo Stream experience will be geared toward your specific tastes and interests.

ADD TO MY SHOWS

Next, you’ll add TV shows and movies to My Shows. My Shows is your all-in-one watch list within the TiVo Stream app, containing all of the shows and movies you add, no matter if they’re from Netflix, Prime Video, Sling, or another supported streaming app. Add the shows that you currently watch or would like to watch, so you can find them in a snap later. (Don’t worry, you can add TV shows and movies any time, not only during setup.)
**CHOOSE STREAMING SERVICES**

Last, you’ll choose streaming services that you use or are interested in using. Shows from these providers will be included when searching or browsing. For the best results, make sure to select as many providers as possible, and be sure to include Sling. See Adding Sling for Live TV.

* Subscriptions to these services are required to watch content.
PART 4: LAUNCH THE TIVO STREAM APP

When on-screen setup is complete, you’ll see the Android TV home screen. The Android TV home screen contains the TiVo Stream app and any other app you download on Google Play. **Always use the TiVo Stream app** to find and watch shows. **Press the TIVO button 📺 on your remote at any time to launch or get back to the TiVo Stream app.**

THE HOME SCREEN

The Stream 4K Home screen gathers all the shows and movies that matter to you – trending titles on all of your streaming services, your recently watched shows, your live TV channels, and recommended shows based on your ratings and viewing habits. You can reach the Home Screen at any time by pressing the TiVo button to open the TiVo menu, then navigating to the top and selecting Home.

Shows displayed in each Home screen strip will change dynamically based on your usage, and even the categories of the strips will update as your Stream gets to know you better. For example, based on what you’ve been watching, you might see a “Comedy Movies” or “Health & Fitness” strip one day and an “Oscar Winners” strip a few days later.
As you highlight an item on the Home screen, a description appears at the top of the screen, including information about which of your streaming providers has it available.

Press the center button on your remote to select the highlighted show and view the series or movie details page. (If you select a show airing live, the show will begin playing instead.) From there, you can choose to watch the show from one of your selected streaming providers, explore individual episodes, add the series to My Shows (by selecting +My Shows), change options, and rate the show.
**TIVO+ CHANNELS**

TiVo+ channels give you access to thousands of the best free shows, movies, and videos previously available to you only online or from separate apps. And they’re 100% free. Want to watch cooking shows all day long? Tune to the Food52 or Bon Appetit channel. Feel like a classic film? Check out the American Classics channel. You’ll find channels devoted to sports, news, travel, pets, technology, and of course, TV and movie channels galore.

On the details page, you can explore other viewing options, rate the show, add an episode/movie to My Shows (by selecting +My Shows on screen), or go to the Series details page to add the entire series to My Shows. Note that TiVo+ shows cannot be recorded or added to My Shows.
MY SHOWS

My Shows is your integrated Watch List, containing shows from all of your selected streaming apps. As soon as a show you added to My Shows is available to watch, it will appear there. No more switching apps or inputs – all of your shows are now all in one place.*

All detail screens allow you to start watching by selecting the streaming app you’d like to use. Depending on the type of show you’ve chosen, other options on the detail screens may include exploring episodes, adjust recording options (Sling Cloud DVR required), rating the show, or seeing other shows like it.

* TiVo+ shows cannot be added to My Shows.
**ADDING TO MY SHOWS**

On a show or movie’s details screen, select +My Shows to add the item to My Shows. All available episodes will be added, no matter which of your streaming providers has it available. Once a show has been added, the + icon is changed to a heart icon, as shown here.
